Two issues stand out to me:

1. Monroe school ballast failures. I advised the teachers to speak with WA DOH about their concerns regarding breast milk and the safety of the classroom for continued use after the ballasts were smoking. It's possible Ed or Dennis would get a call either from WA DOH or the school.

2. Greener Cleanups- implementation of the ASTM Standard Guide for Greener Cleanups at our UW – Terry Hall site. First of its kind in the PCB Program, and it seems like it's the first of its kind in the Region, as Beth Sheldrake didn't push back and point out implementation elsewhere. I think she's the Greener Cleanups Coordinator.
